

VEGSAFE

FRUIT & VEGETABLE WASH | FOOD-GRADE NON-TOXIC | BIODEGRADABLE

VegSafe is a safe, eco-friendly, and food-grade wash designed to remove dirt, wax, pesticide residues, and microbial contaminants from fresh produce. Ideal for households, commercial kitchens, and food processing units, VegSafe ensures that fruits and vegetables are clean, safe, and ready for consumption.

Benefits:

- Removes harmful residues – Effectively eliminates pesticide, fertiliser, and chemical contaminants from produce.
- Destroys pathogens – Reduces microbial load, including bacteria, fungi, and viruses, ensuring safer consumption.
- Preserves freshness – Helps retain natural colour, texture, and taste of produce.
- Non-toxic and food-grade – Safe for direct contact with food without leaving harmful residues.
- Eco-friendly formulation – Breaks down naturally without polluting water sources.
- Versatile use – Suitable for home kitchens, restaurants, hotels, and processing units.

Dosage Dilute 10 ml in 1 litre of clean water. Soak fruits/vegetables for 2–3 minutes, gently rub, and rinse with potable water.

All fresh produce including leafy greens, fruits, root vegetables, and post-harvest applications.
