

BALANCED NUTRITION BETTER HARVEST

Agri Max is a unique blend of natural alkaloids in a biological form, crafted with the exclusive expertise of Avinya Farm Delights to ensure exceptional bioavailability. This advanced formulation enables rapid absorption through both leaves and the root system, ensuring plants get the benefits quickly and efficiently.

Benefits:

- Positively influences the rate of seed and stalk formation.
- Helps in the production of auxins and other plant growth hormones.
- Stimulates root growth and new root formation.
- Improves the bioavailability of plant sugars for all key functions.
- Improves the seed and stalk maturation.
- Improves the absorption of nutrients which is vital to the plant.
- An increased crop quality and reduced toxicity depending upon the soil conditions.
- The surface texture of the fruits and leaves looks fresher.
- Reduces black and colour spots on the fruits.
- Improves the general health of the crops and strengthens the immunity.
- The organic nature of the fruits /leaves/ tubers etc., is increased, leading to more human friendly and healthy yields.

Dosage 0.5 ml to 2 ml per liter of water-basal/ foliar application.

The biological form of alkaloids in Agrio Max actively enriches soil quality by boosting soil-friendly microflora, creating a thriving environment for healthy growth. Its proprietary composition allows for swift nutrient uptake and effective translocation throughout the plant.
